Leveraging AI in Your Classroom

"Work smarter, not harder!" AI tools give us the power to do just that. The possibilities are endless! Explore the opportunities for using AI-driven tools to design rubrics, protocols, instructional activities, and more! Also, generate higher-order questions in the moment while engaging with your class and write your talking points for lessons and videos. Learn the nuances for using AI as your instructional design assistant and your power partner in the classroom to meet individual student needs through greater personalized learning.

Strategies for Supporting ELLs

How can teachers support ELLs in their class~~rooms~~ ~~Participant~~s will explore 7 Essential Elements for ELL Su~~pport~~ ~~includin~~g, explicit language instruction, facil~~itation~~ ~~and student en~~gagement. They will learn actionable strate~~gies to help studen~~ts and teachers thrive. Strategies will be tailored to each participant's grade level and subject area.

Registration Closed

NEW! Maximizing Learning Through Block Scheduling

As more schools honor brain research by offering students longer class periods and fewer courses per day, teachers must rethink how they use tim~~e for teac~~hing and learning. This course will explore two models for ~~teaching, p~~roviding educators with strategies to maxi~~mize learning time. P~~articipants will design units and lessons ~~for block scheduling, ei~~ther envisioning a fluid, student-driven approach or a stru~~ctured beginning-~~middle-end format. Through hands-on planning and practical applications, this course will position educators to enhance learning and make the most of block scheduling.

Registration Closed

New Teacher Seminar

Craft a plan for positioning your stu~~dents as active participants~~ in the learning process as you design a class~~room environment that em~~powers students, building a greater sense of ~~belonging with their~~ teacher. Enjoy consultant support as you build your app~~roach to cla~~ssroom management, student agency, facilitation, using formative assessment to drive instruction, and more.

Registration Closed

Building Executive Function to Support Student Success

Participants will explore six key life skill areas u~~nderpinned~~ by executive function, and design instructional plan~~s to build these p~~rerequisites in all learners intentional~~ly.

Participants in this co~~urse will use D~~r. Nancy Sulla's book *Building Executive Function: The Missing Link to Student Achievement* as a resource. Please purchase the book in advance.

Registration Closed

- $4,950 for a 10-seat registration (seats can be used up to a year from purchase) or $595/person
- Approximately 25 hours of engagement
- For more information on individual VLCs, visit: www.edquiddity.com/VLC

	### Designing Differentiated Activity Lists Participants will explore autonomy, purpose, and mastery as motivators in all learning environments. They will design differentiated activity lists to put students in charge of their learning, creating a structure that allows students to make decisions within a framework. Participants in this course will use Dr. Nancy Sulla's book *Reinventing the Classroom Experience* as a resource. Please purchase the book in advance.
	### Using Formative Assessment to Drive Instruction Explore the structures and strategies you can use to gather formative assessment data to drive instruction targeted for increased student achievement. Design formative assessments for use with your students that can be used anytime. Participants in this course will use Dr. Nancy Sulla's book Reinventing the Classroom Experience as a resource. Please purchase the book in advance.
	### Building Executive Function to Support Student Success Participants will explore six key life skill areas uniquely supported by executive function, and design instructional plans to build these critical achievement prerequisites in all learners intentionally. Participants in this course will use Dr. Nancy Sulla's book *Building Executive Function: The Missing Link to Student Achievement* as a resource. Please purchase the book in advance.
	### NEW! Scaffolding Learning Experiences for ELLs Grounded in IDE Corp.'s 7 Essential Elements for ELL Support, this course equips educators with practical scaffolding strategies to enhance English Language Learners' (ELLs') comprehension and engagement. Participants will explore structured supports while providing students with independent learning resources through differentiated instruction, creating inclusive learning environments that foster academic success and language development.
	### NEW! Strategies for TAs to Support the Learning Environment As a teacher's aide, you play a vital role in supporting students' growth and teachers' success by fostering collaboration and addressing diverse learning needs. This course will explore your responsibilities, including supporting diverse needs, cultural responsiveness, and students with IEPs and 504 plans.
