

Engaging in the Professional Learning Experience from EdQuiddity Inc

EdQuiddity's Professional Learning Experience (PLE) supports independent learning *and* team growth. Each module offers questions, insights, structures, and ready-to-use activities that can anchor faculty meetings, PLCs, and department work, making it easy to spark discussion and guide collaborative instructional design. As you prepare to support your staff with the PLE, consider the components for you to engage with your teachers.

Insight Videos

Meaningful metaphors, connections, and real-world examples—helping the content stick and deepening understanding

Pause and Reflect

For slowing down, making meaning, and connecting new insights to classroom environments

Downloadable Resources

Practical strategies and ready-to-use tools to implement immediately in classrooms

Mindful Moments

Increasing efficiency, organization, and reflection, for adults and to use with students

Activities

Powerful catalysts for collective learning, sparking meaningful discussion, deepening instructional thinking, and guiding teams through collaborative reflection and design

Considerations

Ideas for embedding SEL, leveraging AI as a powerful partner, special education considerations, and more

Food for Thought

Bite-sized insights that simplify big ideas and help educators rethink everyday practices

Home–School Connections

Includes resources that deepen home–school partnerships by equipping families with practical ways to reinforce learning outside the classroom
